

PUSH THE LIMITS

THE NEXT GENERATION OF MAZAK PERFORMANCE HAS ARRIVED BE THE FIRST TO SEE IT IN ACTION AT ALL AXES LIVE

Secure your shop's first-place position at the next episode of All Axes LIVE, Mazak's live virtual event series. In addition to first-look previews and demonstrations of our state-of-the-art machine tools and controls, you'll discover how technology such as PALLETECH, Mazak MegaStir Friction Stir Welding and MAZATROL SmoothAi CNC tools with optional Autodesk software can help transform your operations. Also, learn how to minimize downtime and increase productivity with the help of our Spindle Rebuild Department. Tune in February 23 and get ready to push the limits of your industry. Because success means never settling for second best.

Join us for the next episode of
All Axes LIVE, an original online
event series by Mazak.

FEBRUARY 23, 2021
11:00 a.m. ET

EVENT AGENDA

- 11:00 a.m. — Welcome Address and Introduction
- 11:05 a.m. — INTEGREX i-200H ST Demonstration
- 11:20 a.m. — VARIAXIS i-800 NEO Demonstration
- 11:35 a.m. — HCN-6800 NEO Demonstration
- 11:45 a.m. — INTEGREX i-630V AG Demonstration
- 12:00 p.m. — Closing

TECHNOLOGY IN ACTION

INTEGREX i-200H ST

- Redesigned for optimized Multi-Tasking and on-demand DONE IN ONE® production of complex parts.
- Second turning spindle (S) and lower stand-up turret (T) with rotary tools maximize efficiency.

VARIAXIS i-800 NEO

- Next-generation 5-axis performance with an automation-ready design built for increased crane access and fully unattended operations.
- Tilting/rotary table and high-rigidity construction ensure consistent, reliable accuracy.

HCN-6800 NEO

- Affordable, high-value machining capacity with a smaller footprint and an expanded range of options.
- Best-in-class spindle performance and pallet change speed increases overall throughput.

INTEGREX i-630V AG

- Full 5-axis milling with HYBRID Auto Gear (AG) technology for DONE IN ONE gear production.
- Includes SMOOTH Gear Cutting software suite for simple, easy skiving, hobbing and milling programming.
